

Our Mission Today

- The #1 component you **MUST HAVE** have in place, so you can land clients consistently.
- The **3 most common issues** local consultants face that cause them to a 'slow growth' business. (*and what to do about it!*)
- How to get a **consistent flow of prospects**, appointments on a daily basis.
- The BEST way we've found to get the attention of your audience almost **immediately**.
- How you can use **automation** in your business to do 75% of the prospecting.
- How you can use '**personalized marketing**' to close more clients with less effort.
- How you can make huge profits without doing any of the work. **100% fulfillment!**

Local Marketing Is
HARD!

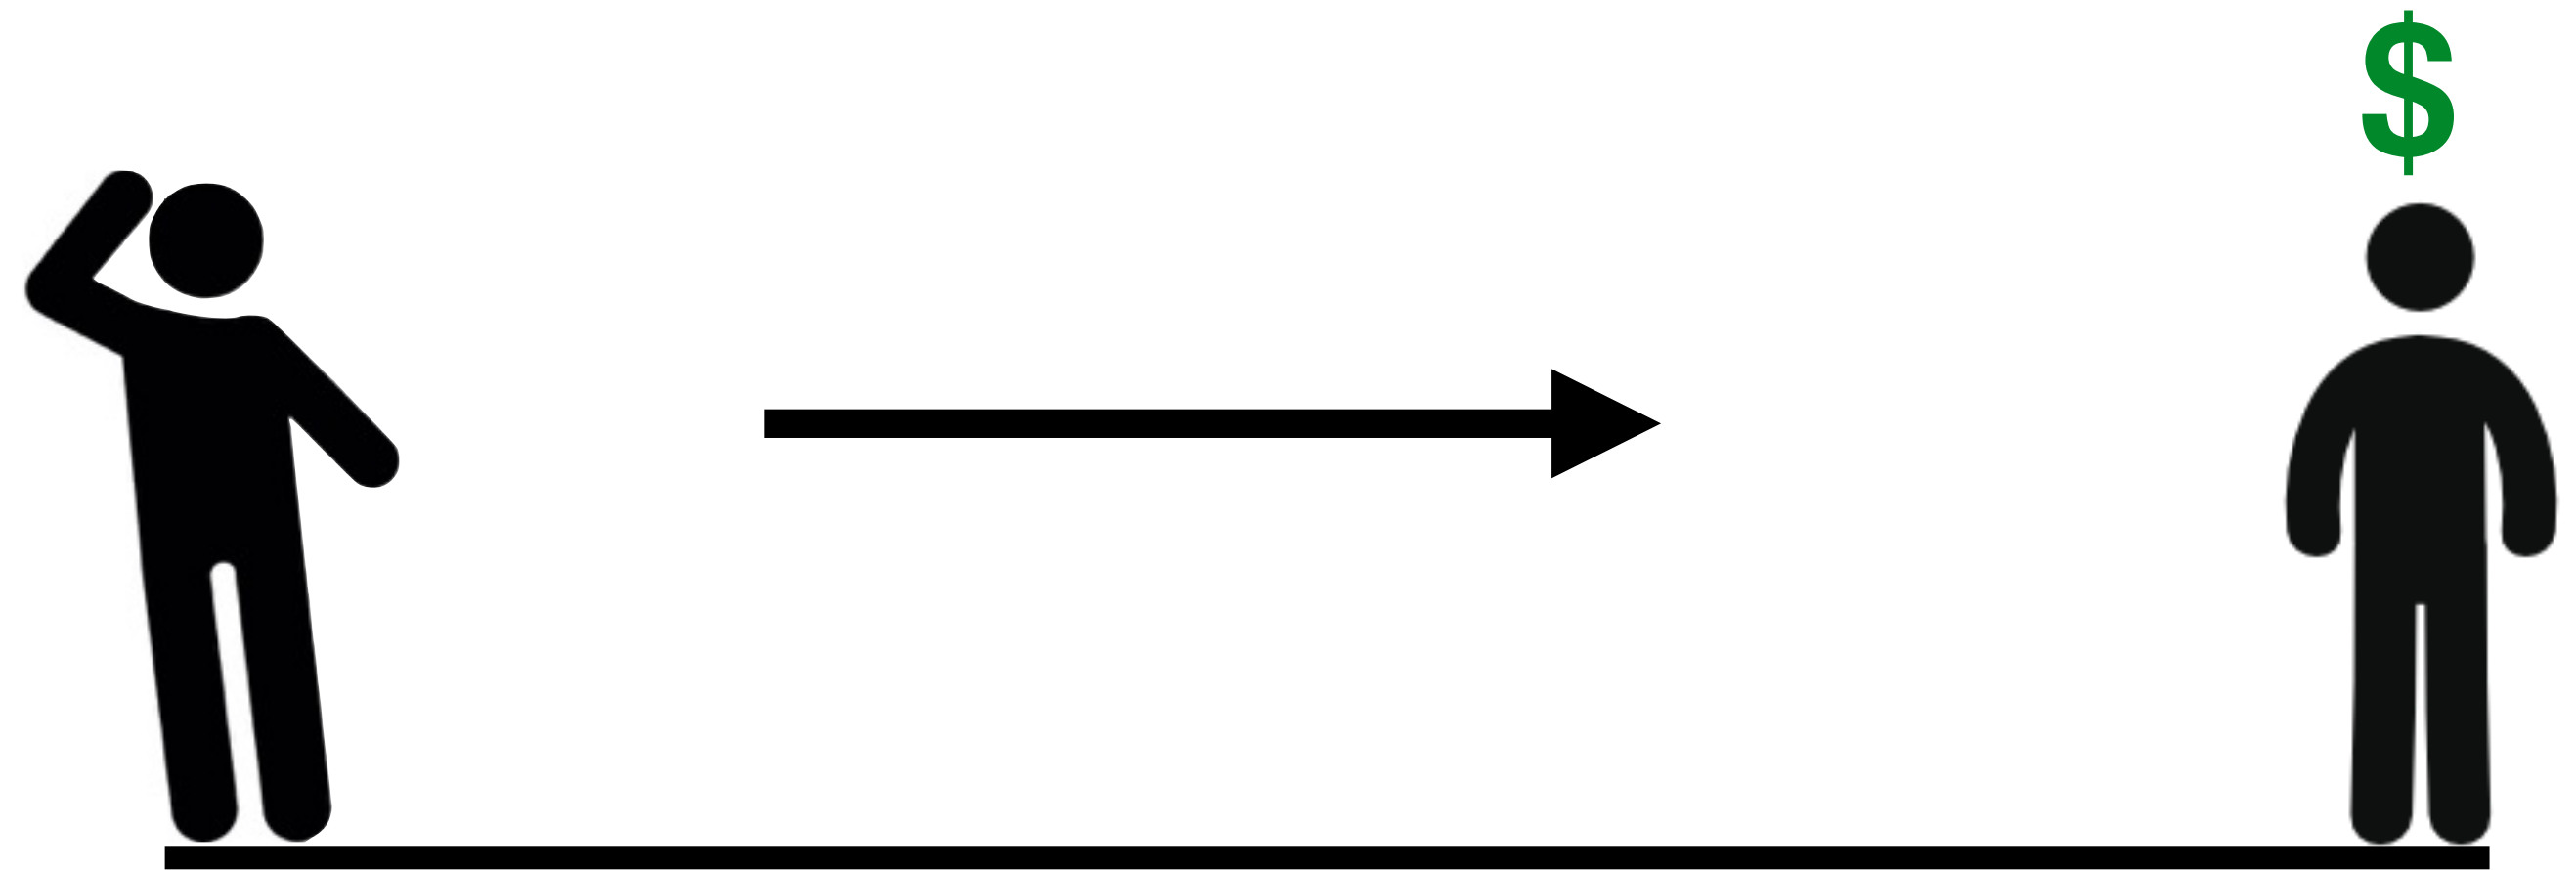

We overlook what it truly takes

- There's so much involved in just getting a client.
- Learning how to get the attention of your market so they're receptive to your offer.
- Learning to spend your time with so your efforts are not wasted.
- How to easily get the appointment without friction
- Selling services without long acquisition cycles
- Fulfillment! (the silent killer that never gets addressed)

There's 1 thing you **MUST
have if you ever want to make
it in local...**

You Need A
COMPLETE SYSTEM!

Goal: Prospect to client in the fastest time possible

So what does a
COMPLETE SYSTEM
look like?

A Complete System..

- Easily identifies your ideal prospects with personal marketing, so you can get their **ATTENTION**.
- Has a defined **INTAKE SYSTEM** so you can always have a pipeline of hungry prospects and not a trickle.
- Provides **AUTOMATION** so you can instantly follow up and nurture prospects that turn into clients.
- Has a proven **CONVERSION MECHANISM** that Provides the exact solutions businesses are looking for that are easy to understand and deliver.
- Just like a franchise, has **TURN-KEY DELIVERY** systems in place that allows you to scale your business, so you can easily fulfill 1 or 100 clients without bottleneck.

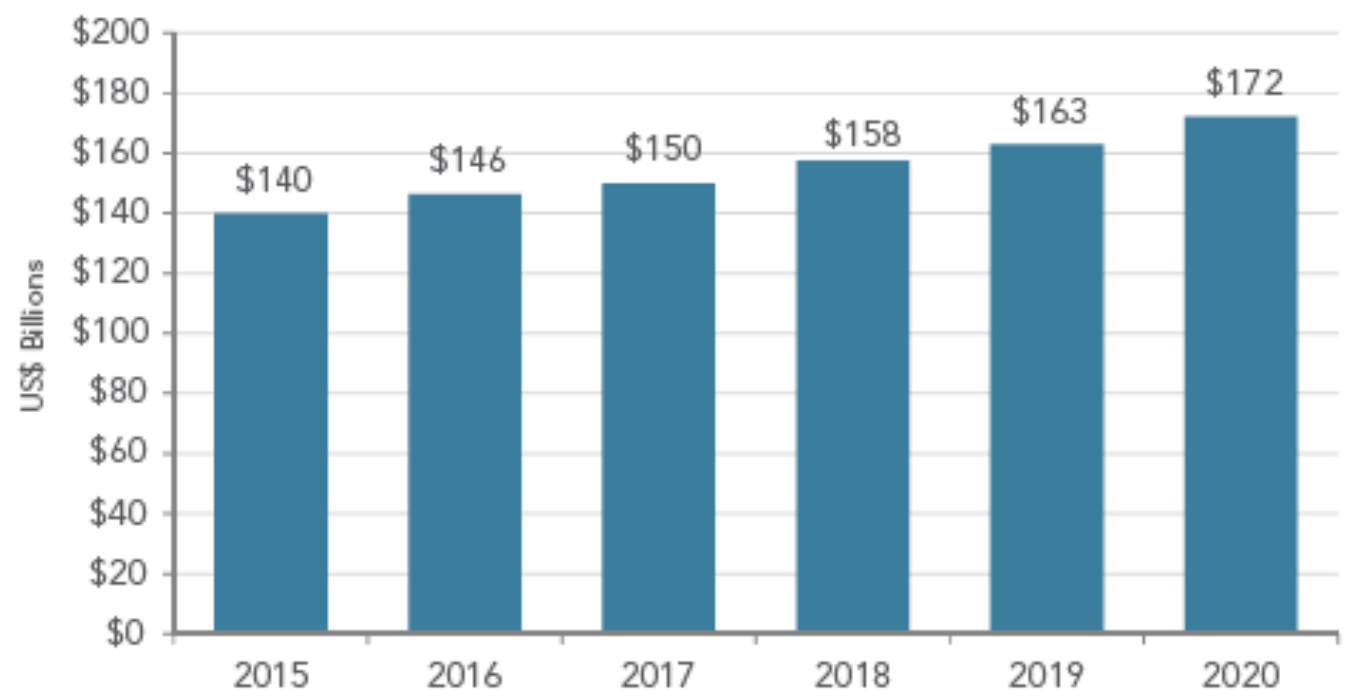

You don't have to have the **BEST** service to build a solid business. You need a **COMPLETE** service backed by a **Turn-Key System.**

The Opportunity

Small business is big business

- Local advertising revenues in the U.S. are set to reach \$146 billion in 2016, up 4% from \$140 billion in 2015.
- Traditional advertising spend is declining while online/digital is growing.

Why This Is The Perfect Solution

- *If sales and cold calling scare you, this is perfect. Why?
- Because you're not selling them on anything, you're simply taking calls, following up with those that shown interest, and making appointments to have **CONVERSATIONS.**
- These conversations are derived from specific issues pertaining to your prospect.
- Because you're leveraging 'PERSONALIZED MARKETING', it's the perfect expert positioning that gets you past any gate keeper with ease!
- It feels good also, because you're selling without actually selling!

Awesome right!?

Let's hop inside the sales tool,
then we'll talk how you'll make
\$\$\$ with this!

How We're Taking Care Of Everything For you

What We've Done To Help You Succeed Faster

- We negotiated a full time digital agency to help you fulfill the services you will sell!
- Yep, all you do is have **conversations** and we handle the rest.
- Meaning, you close clients and you do **NOTHING ELSE!**
- So we have structured best packages for you to sell and **profit** tremendously. These packages have been vetted and recommended by our partner after studying over 500+ partners.

Your Digital Agency

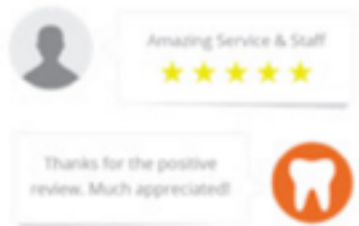

Digital Agency Team

Reputation

Review Response

We have a proven approach to review management. We **respond to negative and positive reviews** on behalf of the client.

Mention Monitoring

We manually **monitor mentions weekly** and provide negative results to the client.

Review Solicitation

Our Review Generation tool empowers businesses to **effortlessly collect new reviews!**

Social

Social Posting

When **creating 2 or 4 posts a week for a business**, we keep a balance of marketing posts with interesting content found online.

Social Presence

For your clients with no social presence we can do a **professional page setup** with logo, company images, hours of operation, and business profile.

Blogs

Blog posts can be created by our content generation team. Each post includes one social linkback pushed to all connected social media accounts.

How Do We White Label Ourselves?

Branded Email Address

The reason we ask for a *branded email address* is so we can remain white labelled while communicating with your clients.

We require the username, password and the webmail URL for the email account.

Toll-Free Number

We also use a toll-free number (1-866-378-8031), provided to all of our partners' customers, and we answer it with a blanket "Digital Agency" brand.

Name the Solution

We want to establish the language we use around the package you offer to your clients, as it helps the client realize who we are!

Working Remotely

Although we are always presenting ourselves as members of your team, we do get asked where we are working from. We typically say we work remotely from Canada, but we never reveal the Vendasta brand.

WHAT WOULD IT COST YOU?

- You identify **100** businesses to prospect
- You offered a gift to the chamber, local association members, made a list of people who advertise locally, bought a list of people that are *New businesses or recently moved, ect....
- 100 snapshots= \$250 (*that's \$2.50 a lead *I wish i could get leads that cheap running traffic*)
- With an industry average of 30% open rates, you have a minimum of 30 people open your report and show interest...

WHAT WOULD IT COST YOU?

- You know this because the system tells you. Soon as you see this, you call these **HOT** prospects.
- *note: you're only reaching out to this that shown interest
- Out of these **30** conversations should land you at least **2 clients**.
- Let's assume you sell them the Protector package at **\$397/m**
- That's **\$6,408** in pure profit with **zero fulfillment**
- So what did it cost you?

When you start thinking in those terms like a business owner, and looking at the alternatives, you'll start to see why you'd literally want to have **conversations** and run **snapshots** every day of the week!

WHO WANTS THIS?

We've covered a lot! You've stayed with me this entire time, and you now have a good understanding on what a **COMPLETE SYSTEM** looks like,

so you can land **more clients**
consistently & predictably.

The reality is this....

If you don't have an **INTAKE
SYSTEM** to deploy **PERSONAL
MARKETING...**

to get the **ATTENTION** of your
prospects in an **AUTOMATED**
manner...

backed by a proven
CONVERSION SYSTEM

that provides **TURN-KEY**
delivery & Fulfillment...

If your local marketing system does not include those key areas, it's probably a reason why you have not reached the success you **deserve** yet.

That **STOPS** TODAY!

*Here's what you're about
to get **access** to.....*
